

Compact information
Air and Sea Freight

ITC Global

In close cooperation with leading air freight carriers and shipping companies, we provide highly adaptable services seamlessly integrated into the global network of our partners.

Our success is built on decades of experience, strong partnerships, and highly qualified consulting and handling staff. We are here to support you with any services you require, from planning to execution.

Air freight-
premium products

ITC.FLIGHT RAPID

Speed is our highest priority. We offer accelerated ground handling with short-term capacities for the fastest possible availability at the receiving airport.

ITC.FLIGHT BUDGET

A cost-efficient solution for less time-critical shipments, providing value without compromising reliability.

ITC.FLIGHT CHARTER

Full charter

Worldwide availability of aircraft

Partial / split charter

Sharing capacity with other shippers possible, cost reduction if available

ITC.FLIGHT TEMPERATURE

Temperature-controlled shipments are managed in designated containers or cargo spaces to ensure the integrity of your goods.

ITC.FLIGHT ON BOARD

The fastest alternative to charter services, your small courier shipments are shipped directly as baggage.

ITC.FLIGHT HEAVY DUTY

We offer planning, consulting, and execution for oversized shipments, ensuring safe and efficient transport.

ITC.FLIGHT DANGEROUS

We ensure smooth handling of dangerous goods with all necessary precautions.

ITC.FLIGHT TO DOOR

We offer deliveries to almost every country in the world, providing door-to-door service for your convenience.

ITC.FLIGHT PACKAGING

We provide airworthy packaging to meet all airline standards.

✈ Air Cargo Services

From budget solutions to express and charter services, we handle all your air cargo needs. Whether small or large, including particularly heavy shipments, we provide customs clearance and global freight tracking.

- Access to the world's largest airline pool
- One contact for all your air freight needs
- Personal assistance and expert advice
- Temporary storage and handling
- Member of IATA and IFLN and authorized by the German Federal Aviation Office

✈ Air Freight Network

We offer efficient shipping solutions worldwide. As a globally networked provider of air freight services, we ensure smooth and secure delivery through our extensive partner network.

Our carefully selected local partners guarantee punctuality and security for all your international shipping needs.

In collaboration with our global network, we offer:

- Direct, consolidated, and express air freight shipments
- Sea freight for general and containerized cargo
Combined air and sea freight solutions
- Infrastructure and project management for special shipments
- Support for globally operating key accounts
Customs clearance, transport, storage, and handling
- Shipment tracking systems

✈ Air Freight Charter Service

Our expert team ensures seamless logistics through:

- Detailed freight loading checks, including special properties and packaging advice
- Comprehensive transport chain planning and organization, including bonded warehousing if required
- Securing special permits and providing full support for charter shipments from start to finish

Air and Sea Freight

Sea and Air Freight Combined Solutions

Our sea/air combination is a cost-effective alternative to pure air freight, offering faster shipping times compared to traditional sea freight.

Example: Shipping from Chittagong to Frankfurt, Düsseldorf, or Hamburg:

- Sea freight from Chittagong (Bangladesh) to Dubai in 14 days.
- Air freight from Dubai to Frankfurt, Düsseldorf, or Hamburg in 1-2 days.

This results in a total transit time of 15-16 days, saving 10-12 days compared to classic sea freight. The closer the departure point is to the air hubs, the greater the reduction in transit time.

Sea Freight Services

In partnership with leading shipping companies, we offer versatile sea freight services integrated into a global network. Our experience, partnerships, and skilled staff ensure the success of your shipments.

We assist you with planning and are happy to provide any services you request, including:

- B/L (Bill of Lading) issuance
- Worldwide distribution and trucking of LCL/FCL shipments
- Comprehensive warehouse logistics

Short-Sea-Service

An Alternative to Road Transport

Short sea shipping provides a true alternative to road transport, allowing you to book 45' and 45' high cube containers that match the internal dimensions of a classic truck. This ensures full utilization of truck loading volumes with minimal transit time delays.

The shipping container becomes a truck

In addition to the classic standard containers, pallet-width 45' containers are also used in short sea transport. This means that the internal dimensions match those of a classic truck and therefore offer a viable alternative for road transport.

Customs Service

- Professional consulting
- Electronic export declaration (AES)
- Digital customs clearance via ATLAS (DE)
- Excise tax declaration
- Neutralization of freight documents
- Applications for remission / refund
- Customs clearance incl. T1 document
- Translation services for customs-related documents
- EU customs clearance / fiscal representation
- Atlas customs clearance

Constructive Packaging

Customized packaging solutions for worldwide transport.

Our customized packaging solutions ensure the safe transport of your goods worldwide. From fragile to bulky products, our expertise guarantees optimal protection and a smooth transportation route.

Konpack service

- Automotive sector packaging
- Consulting, development, and design
- Packaging optimization and prototyping
- Material procurement and inventory management
- Material and quality analysis
- Just-in-time/Just-in-sequence (JIT/JIS) delivery
- Webshop-based ordering system
