# Welcome to ITC

## Your Partner for Global Logistics Solutions

Founded nearly 50 years ago, ITC has grown into a leading, family-owned service provider specializing in high-quality transportation and warehouse logistics across Europe.

Our commitment to excellence spans continents, and our extensive experience has equipped us with a deep understanding of the diverse and unique challenges of each region. We pride ourselves on our flexibility and adaptability, which have been key to our long-standing partnerships with renowned companies worldwide.

At ITC, we believe that listening closely to our clients is essential. We understand that our success goes hand in hand with yours, and we are dedicated to fostering a partnership based on mutual trust, understanding, and collaboration. Together, we are ready to explore new horizons.

## Road Transport

**Daily!**

### Europe, North Africa and Germany

Our comprehensive road transport services ensure reliable distribution and procurement across Europe, North Africa, and Germany. We offer daily groupage freight services across 32 international routes, ensuring efficient and timely delivery.

### Key Road Transport Services:

- Part and full load transportation
- Express and courier services and ADR (dangerous goods) transport
- Real-time status tracking and premium transport solutions
- Customs Service

## Air Cargo Services

Whether you need budget-friendly options or express and charter services, ITC handles air cargo of all sizes, including particularly heavy shipments. We manage customs clearance and offer global freight tracking to ensure your cargo arrives safely and on time.

### Our Air Cargo Services Include:

- Access to the world's largest airline pool
- A single point of contact for all air freight needs
- Personalized assistance and expert advice
- Temporary storage and handling services
- Accredited by IATA, IFLN, and the German Federal Aviation Office

## Sea Freight Services

In partnership with leading global shipping companies, we offer highly versatile sea freight services that are fully integrated into the global network of our partners. Our success is built on extensive experience, strong partnerships, and a team of qualified consultants and handling staff.

### Our Sea Freight Services Include:

- Issuance of Bills of Lading (B/L)
- Worldwide distribution and trucking of:
  - LCL (Less than Container Load) shipments
  - FCL (Full Container Load) shipments
- Comprehensive warehouse logistics

## Customs Service

We offer professional customs consulting and a full suite of digital customs services to ensure smooth international transactions.

### Our Customs Services Include:

- Electronic export declaration (AES)
- Digital customs clearance via ATLAS (Germany)
- Excise tax declarations and T1 document handling
- Neutralization of freight documents
- Remission/refund applications
- Translation services for customs-related documents
- EU customs clearance and fiscal representation

## Cutting-edge Data Technology

Our data hub allows us to quickly establish connections between the various systems involved in the logistics process, ensuring 100% transparency for you, anytime and anywhere.

### Examples include:

- Orders & Invoices
- Inventories
- Shipment interfaces
- Deviations in the control process
- Various reports & shipment details

All available and relevant information can be made available for data exchange. We are also happy to generate automatic reports in your desired format (e-mail, Excel, etc.) and send them out regularly at a time of your choosing.

## Webshop Services

Leverage online logistics as a key success factor for your business. We connect your web store to our merchandise management system and the associated transport systems. You will benefit from the fastest order processing available, including a CEP data-interface (courier and parcel).

Orders from the web store are sent to our ERP system and can be transferred directly to you via interfaces. The orders are then picked, packed, and handed over for shipping. You have access to all relevant information at all times through our data hub, which we can also automatically send to you or your customers via email.

## Warehouse Space

With over 30,000 m<sup>2</sup> of storage space in Germany alone, ITC is equipped to handle major projects. By leveraging our existing infrastructure, we create synergy effects, seamlessly integrating logistics and transport services across a wide range of industries.

### Our Logistics Services Include:

- Contract logistics
- Central warehouse logistics
- Procurement logistics by land, air and sea freight
- Distribution logistics across Germany and Europe
- Warehouse management
- Merchandise management
- Spare parts logistics and technician web shop
- Networking and integration with customer interfaces
- After-sales service
- Rework, technical services, repair services

### Available Storage Options:

- Block storage
- High-bay warehouse
- Small parts warehouse (automatic vertical storage)
- Secure storage facilities
- High-availability warehouse
- Outdoor storage
- Customs warehouse

## Constructive Packaging Solutions

Our customized packaging services ensure the safe and efficient transport of your goods, whether fragile or bulky. You can rely on our expertise to provide optimal protection throughout the entire transportation process.

### Konpack Services:

- Consulting, development, and design
- Packaging optimization and prototyping
- Material procurement and inventory management
- Material and quality analysis
- Just-in-time (JIT) and just-in-sequence (JIS) delivery
- Webshop-based ordering system
